

## EnerFlush™ Hi-Tech Biodegradable Oil System Flush for All Gas and Diesel Engines

- Concentrated Oil Flush for All Engine Oils
- Removes Sludge and Varnish from Critical Engine Components
- Eliminates Sticktion
- Disperses Water
- Extends Engine Life
- Reduces Emissions
- Helps Improve Fuel Economy
- Quickly and Safely Cleans Entire Engine Oil System

### Description

Improve your engine's performance in just one treatment with **EnerFlush™**. Concentrated formula safely and quickly flushes sludge and varnish deposits and other contaminants from oil passages, screens, hydraulic lifters, rocker arms and other critical engine parts. Works in gasoline, diesel and LPG engines. Harmful crankcase deposits are absorbed and flushed out of the engine when old oil is drained. **EnerFlush™** maximizes lubrication, reduces hydrocarbons and nitrogen oxide emissions. May be used alone, but for best results, recommended to be used as part of a complete treatment with an engine flush machine.

### Directions

Add 16 oz. of **EnerFlush™** to up to 6 quarts of engine oil. Start engine. Run engine at high idle for 30 - 45 minutes (not under load). Stop engine and drain oil immediately. Install a new filter and fresh oil. For added protection, add a bottle of **Oil Rebuilder™** oil supplement. This product is also formulated to work safely and effectively with engine flush equipment. Be sure to refer to your particular flush machine instructions for proper use. 64 oz. can be used with 24 -28 quart engines.

**Keep This Product Out Of Reach of Children.**

### Packaging:

Size	Qty/Case	P/N
16 oz.	24	11804
32 oz.	12	11805
