

## Sludge Away™ The Hi-Tech Sludge Re-liquefier and Remover

- Breaks Down Sludge Found at the Bottom of Fuel Tanks
- Will Break Down Fuel Line Clogs Caused by Sludge
- Reabsorbs and Holds in Suspension so Fuel wont Plug Filters
- Cleans Fuel Burner Nozzles and Pumps
- Reduces Oxidation to Stabilize Fuel
- Eliminates Water
- Organic Based Formula with No Harmful Alcohol
- Improves Fuel Atomization for More Power, Greater Efficiency, and Reduced Emissions

### Packaging:

Size	Qty/Case	P/N
32 oz.	12	11114
1 Gallon	4	11116
5 Gallons	1	11117
55 Gallons	1	11119
275 Gallons	1	11110

*Measured in US Gallons.*

### Ratio—1:4000

SIZE	TREATS
32 oz. bottle	1,000 gallons
1 gallon	4,000 gallons
5 gallon	20,000 gallons
55 gallon	220,000 gallons
275 gallon	1,100,000 gallons

### Description

**Sludge Away™** is a powerful combination of organic and petroleum solvents that will quickly break down asphaltics and asphaltines that settle out of fuels and fuel oils and congregate at the bottom of the tank as a thick clogging sludge. Fuel is reabsorbed and held in suspension until burned. **Sludge Away™** causes fuel to be atomized better by the burners for more efficient combustion and reduced emissions. **Sludge Away™** slows fuel oxidation, stabilizing it. This formula contains no damage causing alcohol. **Sludge Away's** ability to eliminate water can help prevent corrosion of metal parts, damaging sulfuric acid build-up, and fuel freezing in filters and lines. With today's Hi-Tech electronically controlled burners and need to make older equipment last longer a high quality fuel treatment like our **Sludge Away™** product is more important than ever before.

### Directions

1. For best results, add contents to fuel tank prior to fueling. The fueling process will ensure that complete and proper mixing takes place. 2. Use 32 ounces for each 1000 gallons of fuel (1:4000 treatment ratio). 3. In difficult cases you can use 32 ounces for each 500 gallons to speed the cleaning process.
